

PETERSON SWAMP WILDLIFE MANAGEMENT AREA (HALIFAX)

LOCATION

SCALE

PETERSON SWAMP WILDLIFE MANAGEMENT AREA

(Halifax)

GENERAL: 250 acres.
U.S.G.S. Quads: Whitman, Bridgewater

VEGETATION: Red maple and white cedar are the dominant trees in the wet areas. Oak and white pine dominate the upland areas.

WATER: Roughly 70 percent of the area is shallow marshland.

WILDLIFE: This area is not stocked and contains only native game including deer, raccoon, fox, rabbit, squirrel and grouse, as well as numerous nongame species.

SPECIAL
REGULATIONS: None.
